Gleaming tile floors flow underfoot throughout much of the light-filled interior including in the open-plan kitchen, dining and living zone. Sweeping benchtops and both under-bench and overhead storage are all yours in the kitchen alongside a suite of stainless steel appliances, a tiled backsplash and on-trend fixtures.

From the living area, you can make your way outside to the covered main balcony with plenty of room to host guests and relax as you admire the elevated views. You can cook on the barbeque and dine alfresco or simply kick back, put your feet up and unwind with a refreshing drink at the end of the day.
